FREE THE ELK & CUT THE COW CRAP

National Park Service policies have killed hundreds of the rare, iconic Tule elk at Point Reyes National Seashore in just 10 years. Private cattle ranchers' profits trump wildlife and ecosystem health. 5,000 cows now outnumber elk 9:1. They are the park's #1 source of land, waterways, ocean and air pollution. And a new "management" plan okays shooting to death even more elk. MORE INFO: TreeSpiritProject.com/elk IDAUSA.org/elk
